Our readers will recollect that a resojution was passed by the Council recomthe trail between Lilloost and Howe's Sound and Burrard Inlet, and also between Chilcosten plateau and Cordere Channel. Now the spring has opened and it is time that the preliminary measarea should be taken to start out the exploring parties. No manner of doubt existe in any one's mind that it is highly desirable to have easy access to the coast from central British Columbia. The cost and difficulties of sending stock from the interior to this market, are such as to prevent our stock owners from attempting to supply this market. A recent instance arms and a continuous and the pageantries of good Haroun al Rascultinatence arms and a continuous and the pageantries of good Haroun al Rascultinatence arms and a continuous arms and a continuous arms and a continuous arms and a continuous arms are continuous arms and a continuous arms are cont cent instance came under our notice of appliances. an interior farmer who wished to dispose of fifty cows in this market; but the difficulties at present are so numerous and Yale to Victoria, that he decided to drive them to Omineca, and after milking them till fall, then to slaughter them for winter beef for the miners. This is but one instance. We could readily produce more. There is however, another foate than that via Lillooet and Howe's Sound deserving of exp o ation for more Port Chilcoaten to the Cordero Channel At present, no one knows how good or new pour a trail can be made between these two points. If a good winter and successor trail can be made there for cat-tle, it may be found to be the most easy way for Northern and Central British with their stock. But, aside from that it is very desirable that a survey-a reconmoissance—of that section of country be correct notion as to whether the Victoria Vand Montreal railway can cross Johnson Straits at that point. Within three mosths time, we may expect to become part of the Dominion. So far as Canada is concerned, we are virtually admitted. The deed of partnership has been drawn and signed, and it only remains for Her Majesty to endorse it,—which event will ake place on or before the first of July next. The railway then is a certainty,an absolute and positive reality. It will ffect the interests of this section of the country for weal or wor. Now, we be-GOVERNMENT STREET, East Side, railway does not come here, a serious blew will be dealt to the property of thiscity. It is necessary, therefore, that steps be taken early this Spring to make t e carrey ordered by the Council. In June at the latest, there ought to be an exploring party traversing the range of country between Bute inict and Longu-bose least, and thence east to the Chil-coaten plain. The matter is of such grave importance to this city, that unless some signs of activity be shown by since of the section of the country question, the citizens of this city, and the people of the entire East Coast of this laised, should raise the fands and send out their expedition, There are morrows. people and more property between Comor and Requimant that will be specially
affected by the railway than any other
part of the Colony. Hence it is the
more necessary that the residents of this
section of the Colony should be up and
doing; and request the Government to send out surveyors as soon as possible. be patriotic enough to make up for the apathy of the Government. Next fall we shall elect three Island Members for Ottaws. Next session of the Dominion Parlament, a bill will be pas-ed beyond doubt to provide for the construction of the Railway, and it will be desirable that our Members who may go to Ottawa should be thoroughly posted in the topography of the country bordering on Johnson Straits. We need not at present expect other sections of this country to take much interest in the route of the For no other place can be a competitor with Victoria and Esquimalt. What say our City Fathers? Are they awake to the importance of a Survey as soon as the ortance of a Survey as soon as the summer opens, and the snow disappears? Information has been received in this city that Hutchison, Kobl & Co., shipping merchants, of San Francisco, have successfully chapleted negotiations with the Russian Dovernment for a lease of Behring and Copper Islands. In Behring Sea, and Robbin Island in the Okhotek Sea, which gives to that firm the exclusive privilege of taking fur seals on those islands. The lease runs for twenty years, under conditions and restrictions similar to those imposed by the United States Government upon another firm—the Alaska Commercial Company. These islands, just passing into the hands of American merchants, are the only fur seal fisheries now remaining under Russian jurisdiction, and their temporary acquisition by this firm evinces great sagacity and enterprise It is another evidence of the extension of American commerce into the Pacific Ocean and adjoining waters. And thus procuring an important franchise from a foreign Government will have considerable influence upon the mercantile and marine interests of San Francisco, as it will serve to increase the influence which are likely to compel a centralization of a great fur trade at this point.

Sand an addition to the growing commerce of these coasts cannot but benefit the trade of the whole port; and our citizens will be glad that this enlargement of San Francisco's interests in this direction promises to ensich these against therein. The documents are signed and seeled and are already on the way from Mt. Petersburg, and the lessees are now Important Extention of San Fran-

has submitted the conquered French Repub-lie. Neither the fear of German wrath nor the dread of insolent rejoinders, which have served so effectually to squeich the heads of other nations in the expression. other nations in the expression of their indig-nation, could prevent Victor Emmanuel from declaring his disapproval of the harshness of Prussia in her day of triumph.

ADVICE GRATIS.—Endeavor if possible to keep a clean conscience. Rise with the lark, but avoid larks in the evening. Be above ground in all lwellings, and above board in all your dealings. Love your neighbors as yourself, but don't have too many of them in the same house with you.

A lady well known in Washington as lobbyist always accosts a stranger with, "I think I have seen you somewhere," which often leads to a clue for her finding out the history of the party. One evening she play doff her usual game on a gentleman that understood her character, and replied, "most likely, madam, for I sometimes go there.

man sailed on the steamship Pacific day, for Victoria direct, and may be spected here on Sunday next, and to preach in the Wesleyan Church on Sunday evening. It is the President of the Wesleyan Metho-lat Conference of Canada, and visits this of Conference of Canada, and visits this of his extended diocese on matters conscied with the interests of the Church. As preacher, he stands in the very front rank; and as an orator, he is said to have no equal on the continuous of America. A correspondant writing to an American paper, thus alledes to him as a platform speaker: . 'in the large cities no room has yet been found the large cities no room has yet been found sufficiently capacious to accommodate the public. He recently refused \$50,000 for indive lectures. He has been uninterruptedly before the public, in the Old and New World, for many years, and still there is no abstement in the lustre of his rare and uncommon powers. Admitting he is one of the most profound, imaginative and eloquent foliage men. His platform and accommon to the most profound. of bring men. His platform and pulpit failed of illustration. His fancy is loxurihught with tender and touching pathos, so not but few, if any, can listen and withsund the facination and magic of his eloing sense of the amazing force and fire of his creative mind. He is a master of language, and possessed of the very highest elemental powers of oratory. It is a luxury and privilege to hear him," We understand it. Punshon will deliver some two or three

THE REAL PROPERTY. ADVANTAGES OF CANADA .- The perfectly free and linetal character of her political constitution, the complete control the people can, if they will, exercise in their Federal Provinmunicipal Government; and with respect to the prime necessaries of life, Canada may certainly compare very favourably with any British colony, and they are to be had hateper there there then in Great Britain and the t nited States. With respect to taxabetter. In Great Britain and Ireland it is 2.4, 7d, or about two and a half times the mount of Canada's projection. In the United Nates it is 2/. 19s. 5d. per head, or more than three times that of Canada. But the tatation of the other British colonies places la New Zealand the taxation is actual y 121. id. per head; in Queensland, 51. 13. 91 per bed; and in New South Wales, 61. 6s. 9d per heed. Thus Canada is taxed only in the pro-pertion, in round figures, one-thirte-uth of allow Zealand—less than than one-sixth of Sout Australia-one sixth of Queensland-

OFF FOR THE SKEENA .- The Grappler, Capt. Devereux, got off at seven o'clock last even-Skeenamouth, via Nanaimo, Saaquash, Bella Cools, &c. Forty men left this city by her, and at Nanaimo the number will agmented by ten or fifteen more who have esgaged passage by the Grappier. The stemer has been put in order for passenger traffic one hundred and twenty-five berths between decas have been put up, and on deck is litted a large cooking range for the use of the miners, who will prepare their own meals. About 150 or 200 pounds of freight fa allowed to each man; the vessel carries none on her own account. The fare is \$15, the same as charged by the Otter, we believe. We menthroughout Washington Territory, Oregon, California, &c., &c., who intend visiting the Peace River country this season, and so whom the information, will, no doubt, be useful. Mesats. Stevens, Borthwick, Keays, Humphreys, Leighton and Bunster were amongsthe number, the latter for Nanaimo.

HON DR. TUPPER ON THE CANADIAN PACIFIC Ranacan.—Mr. Tupper, during the recent de that the superiority of the t'anadian route facile Railway was indisputable and that the alternate blocks of land which would be property of the Government would reside enough to discharge its pecuniary obligations respective residents. chligations respecting railways. He expressed the belief that the Northern Pacific Company, who would have nearly 1000 miles of the rest to run through, would never—seeing Canada was determined to push her road to the Pacific and a state that work heroad the Pacific—go on with their work beyond Penhina. They would extend their line from seargetown to Pembina and thence to the led River, but it could never be thought, be striked. tarried further west in view of the far super-ier advantages of our route.

that the date for handing in the plans for the that the date for handing in the plans for the rebuilding of Christ Church, is nostponed in order to receive plans from San Francisco. The postponement was adopted chiefly, to await the arrival of the steamer, which is expected to convey intelligence with regard to a large and valuable lot of cut stone which lies at Honolute, and which was intended for that city, to be used in the construction of a church. This stone was sent out from England, is worth fifteen thousand dollars, and it is possible it may be used here, for Christ Church. We are informed it can be purchasted for a comparatively small amount; correspondent ed for a comparative; small amount; correspondence has been going on with a view to its being transhipped to this port.

THE NEW SOVEREION -. A few words are only necessary to observe says the Bullionist, that, by a Royal Proclamation the Queen in Council has authorized the minting and issue of a new coinage of sovereigns. These do not differ in weight, fineness, dimension, and value from the sovereigns now current. The only change is that of the impression. Every such newly-minted sovereign is to have on the obverse the effigy of the Queen, with the inscription 'Victoria D. G. Britanniar Reg. F. D.", and on the reverse the old and well known impression of "George and the Drag-on;" with the date of the year and graining on the edge of the coin. These new coins are, of course, to have the same currency as the old ones, and will' no doubt, in course of time, supersede them. The change is of no consequence whatever is mon tary transic tions tuese sovereigns will be equal in I respects to the others, except in the distinctive marks indicated. For that reason we have thought right to mention the notification. It might be misunderstood, but in reality it means nothing beyond a mutation in the appearance of the coin.

ANOTHER RAILROAD TO PORTLAND .- A DUMer of the most enterprising citizens of Portland are taking steps to build a road connecting that city with Salt Lake. They have organized a company with a capital of twenty millions, and are now about to open books of subscription. This is a step in the right direction. If they can make Portland a rail road centre, it will become a town of respectable dimensions without an outlet to the oceah. The new organization is called the Portland, Dalles and Sait Lake Bailroad Company, it is composed of excellent mate

Passion WEEK .- Monday commenced the season known as Passion Week. Services are held daily at the Episcopal and Catholic Churches. To-morrow will be Good Friday, churches. To-morrow will be Good Friday, the day set apart to commemorate the Crucifixon; it is considered by Christians, the most sacred day in the whole of the Church catendar. The day is usually observed throughout Christendom as a holiday. Religious services will be held, morning and evening, at most of the places of religious worship in this city.

THE ONTARIO ELECTIONS, -The elections in the Province of Ontario, took place March 21st. The result, so far as heard from, indicates a loss to the government party of eight to ten votes. The opposition claim a victory, to ten votes. The opposition claim a victory, but the government organs contend that they have a good working majority—All the members of the Ministry have been returned. The ejections throughout the Province was decree, suspending the operations of treatkeenly contested, but the atmost order and wood feeling prevailed, and not the slightest disturbance is reported.

SUSPICIOUS CHARACTER. - George Bryant, as charged in the Police Court vesterday morning by officer Farrell, with being a suspicious character. The officer said that he found the prisoner with his arm through the window of the blacksmith's shop of Mr. Charters, on Wharf street. The prisoner was re-manded for one day for further enquiries.

Assault .- John, a Hydah Indian, wes charged in the Police Court yesterday morning, by another Hydah Indian, named Bill, with assaulting him by hitting him on the head with a stone. The presoner preferred a Magistrate said they were both to blame, and he would therefore fine them \$10 each, or in default to be committed to prison for fourteen

FOR THE MAINLAAD. - The steamer Enterprise, Capt. Swanson, left yesterday morning at 10 o'clock for New Westmiaster, with about 60 passengers, a large quantity of freight, two horses and an express coach for Gerow & Johnson. Among the passengers were Meeers Humphreys, Kay, Oppen-beimer and Leggett. The Enterprise will retuen this evening.

A CALL ACCEPTED. -The Jefferson (Iows) Era of March 10th says M. Henry Money and Mary H. Money, late editor and editress of that paper, "have received an urgent call to go to Washington Territory, and publish a daily, tri-weekly and weekly newspaper, and have accepted it." But they won't bring their old establishment with them.

A LARGE STEAMSHIP .- The Egypt, recently Steamship Company's New York and Liver-pool line, is said to be the largest steamship in the world, except the great Eastern. Her length is 440 feet; breadth of beam, 44 feet; depth of hold, 30 feet; tonnage, 5,150 tons.

GLANE SE SENIMBUCK DE GERT IMPEN TRANSPORT OFF CAPE DE LA HOOUE, AND THE LOSS OF 1,100 LIVES.

Sir Harry Veruey has received from a gen-tleman laboring in France in connection with the Society for the Relief of the French Sick

teman laboring in France in connection with the Beckity for the Melice of the French Sick and Wounded a few particulars concerning the loss of Le Ourf, a French government transport, weaked on the rocks off Cape de la Hegue, of the night of February Th. Unboard Le. Cerf were 1,081 French wounded and convelecents and a crew of 150 men. Ut the latter ten saved themselves on agars, etc. The letter is dated Calais, Saturday lest, and says:

In the face of this rhip we are lab most deeply interested, as it contained 1,060 wounded soldiers, marises and sailors, all of whom had been cared for by different members of the National Society for the Relief of Sick and Wounded. They had been sent to Calais from various parts of the north of France for embarkation, their destinations being Cherbourg, Brest and Bordeaux, from which places they would be sent on to their homes. Many of them were the sons of gentileted on the poorest people in Calais and hitting from various parts of the corting the temperature of the House discussions. The subject of the morth of the more of the would be sent on to their homes. Many of them were the sons of gentileted on the poorest people in Calais and the injunctive day in the prockets, clothes in rags, and were billeted on the poorest people in Calais and little greasy water called soup were given to them, and there was never emough. Thus these poor starved soldiers, who had any ford the series and for the expension of the section of the House of the interesting the late Germansar, there the desiration is place of the late of the section of the House of and its the series and the injunctive day. The first and the desiration of the late of the section of the late of the section of the House of Accusting the late of the section of the House of Accusting the late of the section of the House of Accusting the late of the section of the House of Accusting the late of Societe pour Secours aux Blesses gave them a mesi on their first arrival—nothing more. The wounded men on board the ill-fated Coff were each and all delighted to tell of the noble gitts that had been sent them from Eng-land. At Netz, directly ofter the capitulation the first food they had was from England, and how many lives had been saved in con-

sequence! Hundreds were on board who had been wounded at Villers Bretoneeux and Amiens on the 26th and 27th of November ; these had been cared for entirely by the of their departure, and each carried with him some subsantial proof of England's sympathy for France in her hour of need. Saturday and Sunday, as they were departing, they came by dozens to thank their nurses. Others were parted from at the train, where many a noble man, with the greatest politeness and courtesy over and ave again, declared that England had saved their lives.—Lon-

dos Globe, Feb. 21st. 11st Justinale Reviewing his Holiness.

New York jounalism has just won another of its peculiar triumphs. A leading newspaper of the metropolis, feeling that the Pope is not already sorely enough tried, sent one of its service lackers to interview his Holiness, and spread his views before one hundred and seventy millions Catholic believers. The fellow entered on his work with zeal, and so well satisfied with his achieve-ment that he signs his name in full to the production, which fills an entire page in the paper. The first column is devoted to the usual puff of the paper's enterprise and the reporter's peculiar fitness for the mission, the second to the journey to Rome, the third to Dr. O'Carlagan, the fourth and fifth to Monsignure Nardy and the sixth to the Pope houself. The fellow who had been crawling on his knees before every ecclesiastic that he had met, genuffected on one knee" before the Pontiff and ki-sed his hand. This osculatory salute failed to unseal the Pope's ligs for he instructed the reporter with nothing but the most stale and ordinary facts. The Holy Pather shows in the conversation at active rense that he was being bored, but when he declined to say any thing about the modus vicendi between himself and the King, and the prospects of his own departure from Rome, the impression left on the reporter was not that he had that he had been snubbed as an imprud-ent intruder, but something much more

satisfactory to himself. New Brunswick Logistature. The Local Legislature of the Province of New Brus wick was opened on Thursday, the 16th February. The following is a condensed report of the opening Speech by

Hon Gentlemen of the Legislative Council; Gentlemen J the Legislative Assembly:

I have great pleasure in again meeting you in Legisle tive Session.

It is ession.

I congratulate you upon the presperous condition of the Province, as exhibited in the rapid growth of our manufacturing interests, the extension of our commerce the expansion of our mercantile marine, the increase demand for our agricultural products and the remaners tive prices received therefor.

The Provincial Exhibition of the past year afforded the most conclusive evidence of the iertility of our soil.
